Tells Pittsburg Traffic Club Improvements Are to Be Carried Out.

VIEWS ON PEACE CONTROL

Director-General Believes in Creation of Gigantic Systems Under Joint Rule.

Pirranung, March 26 .- Despite the nancial predicament of railroads the allroad Administration purposes to arry out as much of its improvement regramme as possible to keep labor emloyed and roads in repair, Walker D. Hines, Director-General of Railroads, so announced in an address to-night before he Pittsburg Traffic Club.

He asked for a more adequate under standing on the part of the public of problems facing the railroads during the war and in the immediate future, and presented suggestions for operating roads rivately under public regulation as a smanent solution of the difficulties of railroads. He emphasized that the fellity of the Railroad Administration to fnance-itself in spite of the failure of its appropriation does not mean that it will need the appropriation as soon as

Referring to the improvement pro-gramme, Mr. Hines said:
"Unfortunately the impression has gone out that the Railroad Administra-tion has decided to cut off all improve-ment work, including additions and bet-terments and maintenance. This is not a fact. What has happened is that we are taking steps to give the railroad corporations full opportunity to determine whether they should assent to the work which they must finance.

Will Keep Labor Employed.

"It is the intention of the Railroad "It is the intention of the Railroad Administration to carry forward just as much additions and betterments and maintenance work as possible in order that labor may not be thrown out of employment unnecessarily and in order that the railroads be kept in good repair and extended to meet the needs of the situation."

Proposing eventual private operation with Government supervision, Mr. Hines My own view is that a moderate

guaranty on capital should be prescribed (by the Government) so as to give a reasonable assurance to capital, and that there should be a right to a participation in any profits made in excess of that guaranty so as to furnish the beeded stimulus to private initiative.

'I further believe that the Government should be strongly represented on the soards of directors and that these Government directors should constitute an important part of the regulating body which prescribes the rates so that this regulating body will know as necessities develop that the necessities are developing and will be able to meet the needs of the situation much more nearly at the time the needs arise then the results. time the needs arise than is possible

Suggests Mammoth Combines. "I do not believe these fundaments

changes can be successfully carried through except by the construction of a comparatively few great railroad cor-porations, each of which will so com-bine the prosperous and unprosperous reads as to present a fair average re-sult and get away from the hopeless diversity in earnings which has existed in the past; and upon each of which it will be practicable to have ample Gov-

Reviewing Government operation of railroads during the war, Mr. Hines said It was important that the public underaccomplishment of three great results. First, conflict of priorities was aliminated and unification of control pre-rented serious congestion. Second through Government control railroad through Government control railroad labor was given wage increases and improved working conditions. Third, the Government provided for adequate financing of the roads which otherwise would have been almost impossible. None of these questions could have been dealt with properly except under Gov ernment control, said Mr. Hines.

Wage Increases Awarded.

WASHINGTON, March 26.—Wage in-breases of 10 per cent, with time and a half for overtime and retroactive to November 1, 1918, were awarded to-day by the War Laber Board in the case of Brushmakers Local No. 38 against the Chicago Brush Manufacturing Com-

SILK PRICES FAIL TO SHOW DECREASE

Scale Laid to Very Gradual Return of Skilled Labor to Pre-War Pursuits.

Since the termination of hestilities there has been a downward trend in the raw silk market, but the return of skilled labor to pre-war manufacturing pursuits has been very gradual, and, in consequence, there is little prospec of a lower cost of manufacturing, and on an average prices in the broad silk market have not decreased to any noticeable degree and there is no indication of such an occurrence. This viewpoint was expressed in the report of Ramsay Peugnet, secretary of the Silk Association of America, at the annual meeting of the association yesterday. Several new projects current in the industry and the plans of the association for greatly enlarging the scope of its activities were discussed. Of the year's problems which directly concerned year's problems which directly concerned the silk industry, it was stated the most serious proved to be the labor shortage in the earlier months. This condition was not immediately relieved by the signing of the armistice, Mr. Peugnet points out, commenting that without consideration for the fact that industry consideration for the fact that industry necessarily required a respite, in order to recover from war conditions and adjust itself to the new status of commerce, labor intensely aggravated the difficult situation by presenting demands for radical changes in the hours of work, even in face of the fact that the silk industry has for years been operating on a more liberal scale than other textile industries.

Officers were elected as follows: Charles Cheney, treasurer of Cheney Brothers, president; H. Schniewind, jr., president and treasurer of the Susque-

president and treasurer of the Susque-hanna Silk Mills; M. W. Dippel, presi-fent of the National Ribbon Company, and James A. Goldsmith of Hess, Gold-

and James A. Goldsmith of Hess, Goldsmith & Co., vice-presidents; Ramsay Peugnet, secretary and treasurer.

Needle Makers Ask Help.

Invasion by Japanese manufacturers of the needle-making industry of the United States is threatened. As the result of recent developments the situation has become so serious that factors in the industry in this country, who are united in formulating plans for an aggressive campaign against the invasion, are endeavoring to have the Government take some action to protect their intercests.

Japan only began the manufacture of needles shortly before the war, but she has rapidly forged ahead, due principally to the fact that Germany was eliminated from the industry. It is predicted teat Japan's new venture, which has been most successful in the manufacture of machine needles and hostery knitting needles will give her 80 per cent. of the South American trade.

American manufacturers are now able to care for all domestic demands for H. Linkers H. Linkers J. Manganaro: Jan. 21st, 1918.

Pile Fabrics Selling.

Purchasing by women's wear manufacturers for their fall and winter lines than dwinter lines that their local market for pile fabrics. Of the various lines velvet materials blacks and navies continue to lead in the sales, while there is shades of brown. Some of the lighter shades have come into prominence, with white a leader.

Although the demand for velvetcens has been for small lots, sales have been selling well, and buyers are taking lots accordingly. Corduroys have been selling well, with the demand generally for various grades of white for immediate well, and buyers are taking lots accordingly. Reported Killed In Action.

Wagoner.

WILDNER, Buddolph, 162 St. Nicholas ave., New York, N. Y.

ratious grades of white delivery and browns for fall and winter apparel.

Plushes which imitate different kinds of furs are popular and their sale is said to be increasing. Some of the newer offerings of this material appear so much like the real article that close examination is required to determine the difference.

"Wider skirts for street wear
and no more immodest evening
gowns" is demanded by several of
the prominent women's clubs here.
The club women declare that the
narrow skirt is "not only immodest
but also unsafe," and teat the "exploitation of these styles with scant
quantities is made principally to add
to the profits of the manufacturers."

After they have protested to those
who are responsible for creating
these styles, the club women are going to seek to obtain the support of
department store buyers. The Philadelphia Mothers' Club is taking up
the matter. Swedish American Line S. S. STOCKHOLM **,070 Tons APRIL 19, MAY 28, NEW YORK DIRECT TO GOTHENBURG, SWEDEN. Short routs to SCANDINAVIA. Superior accommoda-PASSENGER OFFICE, 24 State St., N. Y.
